Version 1

Safety Recall: Driver's Frontal Airbag Inflator (NADI-Unaffected)

AFFECTED VEHICLES

The affected vehicles for this bulletin varies. Check the iN VIN status for eligibility.

BACKGROUND

A review of manufacturing records revealed that certain vehicles originally included in the Driver's Frontal Airbag Inflator (NADI) Safety Recall were **NOT** originally equipped with a driver's frontal airbag module that contained the recalled inflator.

This resulted in the removal of approximately 16,000 Honda vehicles from the recall. Vehicles that have been removed from the recall will show a completed campaign 6NA00 with a link to this service bulletin in the iN VIN status even though the vehicle was not brought into a dealer.

A notification will be sent to these customers advising them on this situation.

CUSTOMER INFORMATION: The information in this bulletin is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely maintain your vehicle. These procedures should not be attempted by "do-it-yourselfers," and you should not assume this bulletin applies to your vehicle, or that your vehicle has the condition described. To determine whether this information applies, contact an authorized Honda automobile dealer.
