The affected vehicles have been marked with campaign number 0000348400

In order to determine if a specific vehicle is affected by this campaign it will be necessary to verify the vehicle VIN in AIR (Aftersales Information Research). Based on the response of the system, either proceed with the repair or take no further action. Please note, open campaigns or vehicle stops may not appear in DCS Warranty Vehicle Inquiry or sales systems until 24-72 hours after they are announced, therefore AIR is always the recommended method for determining open campaigns and vehicle stops.

### SITUATION

Vehicles were produced with a milled brake fluid reservoir cover (option codes 796, 797, 798, 799, 79G, 79H, 79I, 79J, 79K), which may not fully conform to legal requirements.

## CORRECTION

The affected part must be replaced with a new compliant brake reservoir cover. Vehicles as of March 2nd, 2020 are produced with the updated brake reservoir cover.

Vehicles that were updated with a standard cover at the warehouse or by the dealer at the time of sale are also marked with the new campaign number. All customer will receive notification of the recall campaign via the usual recall letter.

## PARTS INFORMATION

Obtain and confirm the part numbers for your specific vehicle by entering the chassis number in ETK which takes into account specific equipment and/or options.
