Dear Mercedes-Benz Owner:

This notification is a reminder sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Our most recent records indicate that **the Mercedes-Benz vehicle registered in your name is affected by the subject recall, and still has not been repaired.** We want to stress the importance of making an appointment at your preferred authorized Mercedes-Benz dealer as soon as possible for this FREE recall repair. The original communication for this recall was sent to the owner who was on file as of April 2020.

Mercedes-Benz AG ("MBAG"), the manufacturer of smart vehicles, has decided that a defect which relates to motor vehicle safety exists in a certain Model Year ("MY") 2019 smart EQ fortwo vehicle. Our records indicate that your vehicle is affected.

**What is the CONCERN?**

MBAG determined that on a certain MY 19 smart EQ fortwo electric drive vehicle, the welding of the main cell conductors in the high-voltage battery might not meet current production specifications. In this case, the welded joint might detach under thermomechanical loads or vibrations. This could lead to a failure of the entire high-voltage battery. Battery failure would lead to a loss of propulsion and a stalling of the vehicle while driving, increasing the risk of a crash. In addition, it is possible that neighboring cells could ignite which could increase the risk of fire.

**What will your DEALER DO?**

An authorized Mercedes-Benz smart dealer will replace the high-voltage battery on the affected vehicle. This service will be provided free of charge. We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be less than 3.5 hours, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz smart dealer will also check for other repair measures which might be applicable to your vehicle which may increase the required working time.
