Dear «POLKNAME»:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

**Our records indicate**  
**YOUR UNIT HAS NOT BEEN**  
**REMEDIED.**  
**Please DO NOT ignore this notice!**

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2020 Keystone Bullet Travel Trailers. As a result, Keystone RV is conducting a safety recall. We apologize for any inconvenience this action may cause you; however your safety and continued satisfaction are of the utmost importance to us.

***Reason for  
this recall***

It has been decided that the vehicles in the recall population did not have an egress window installed in the main living area. If an emergency situation arises the occupants of the vehicle would not have a secondary emergency exit other than the entrance door, which could result in an increased risk of personal injury.

***What we  
will do***

Keystone representatives have been in contact with the staff at your selling dealership regarding this situation. The remedy is to replace the existing crank open vent window with an egress window. The service and parts required for this corrective action will be provided at no charge to you.

Please ask your dealer if you wish to know how much additional time will be needed to schedule and process your RV for this repair.
