Dear «POLKNAME»:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Our records indicate
YOUR UNIT HAS NOT BEEN
REMEDIED.
Please DO NOT ignore this notice!

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2019 – 2020 Carbon, Cougar, Fuzion, Impact, and Raptor Fifth Wheels. As a result, Keystone RV is conducting a safety recall. We apologize for any inconvenience this action may cause you; however your safety and continued satisfaction are of the utmost importance to us.

***Reason for
this recall***

It has been decided some Furrion over the air (OTA) antenna wings are separating from the mounting base on certain fifth wheel models. If the antenna wing completely separates from the mounting base while the recreational vehicle is in transit, it could become a road hazard, potentially increasing the risk of a crash or injury.

***What we
will do***

Keystone representatives have been in contact with the staff at your selling dealership regarding this situation. The remedy is to replace the Furrion wing style antenna with a Winegard dome style antenna. The service and parts required for this corrective action will be provided at no charge to you.

*What we
need you to
do*

Inspect your antenna to see if it is loose or detached. As soon as possible, please make an appointment to have your RV serviced by your dealership. The labor time to perform this correction is approximately 1 hour. Please ask your dealer if you wish to know how much additional time will be needed to schedule and process your RV for this repair.

BE ADVISED –
**Damage caused by failure to have the
recall remedy completed will be the
responsibility of the owner.**
