«POLKCITY», «POLKST» «POLKZIPplus4»

This notice applies to your vehicle: «VIN»

Dear «POLKNAME»:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Our records indicate
YOUR UNIT HAS NOT BEEN
REMEDIED.
Please DO NOT ignore this notice!

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2021 Cougar Travel Trailers. As a result, Keystone RV is conducting a safety recall. We apologize for any inconvenience this action may cause you; however your safety and continued satisfaction are of the utmost importance to us.

Reason for this recall It has been decided that the Solar Prep wiring to the 12VDC breakers located by the battery may not be connected to the protected side of the breaker. If this condition exists, it will lead to an increased risk of fire if an electrical short should occur on the unprotected circuit. If the wire leading to the Solar Prep experiences a short, there is an increased risk of fire and/or property damage.

What we will do Keystone representatives have been in contact with the staff at your selling dealership regarding this situation. The remedy is to inspect the installation of the Solar Prep wiring at the circuit breaker mounted close to the battery and remount the wiring if needed. The service and parts required for this corrective action will be provided at no charge to you.

***What we
need you to
do***

Wiring must be remedied by an authorized dealer. As soon as possible, please make an appointment to have your RV serviced by your dealership. The labor time to perform this correction is approximately 1 hour. Please ask your dealer if you wish to know how much additional time will be needed to schedule and process your RV for this repair.

**BE ADVISED –
Damage caused by failure to have the
recall remedy completed will be the
responsibility of the owner.**

***If you have
questions***
