Light Relocation,
Reflector, Conspicuity
Tape and Rear
Extension Installation Kit
(VVK00-0009)

Background:

INADEQUATE LIGHTING, REFLECTORS AND CONSPICUTITY TAPE

The lighting, side and rear reflectors and conspicuity tape do not meet US or Canada Federal Motor Vehicle Safety Standard (FMVSS/CMVSS) governmental regulation 108 for the United States, Canada and Mexico. The trailers may not have an extended lower rear chassis, reducing rear impact protection and does not meet US or Canada Federal Motor Vehicle Standard (FMVSS/CMVSS) government regulation 223 for the United States, Canada and Mexico.

DEATH OR SERIOUS INJURY POSSIBLE

When towing or parking the vacuum excavator on public roadways, a crash may occur resulting in **death or serious injury** resulting from a driver(s) of other vehicle(s) not seeing the vacuum excavator at night or during limited sunlight and strike the vacuum excavator. To reduce the potential of this occurring, vehicle lights will be relocated, additional reflectors and conspicuity tape are being added.

In the event of a rear impact crash, the other vehicle may travel under the rear of the vacuum excavator, increasing the risk of serious injury or death to someone in the other vehicle or to the towing vehicle occupants.

Property or equipment damage may also occur.

Solution:

IMMEDIATE MACHINE MODIFICATIONS REQUIRED

VVK00-0009 has been created to provide the necessary parts and instructions to relocate the vehicle lights, add reflex reflectors, add conspicuity tape to the sides and rear, and add a rear extension. **This kit must be installed as soon as possible.**

Please be reminded that it is a violation of Federal law for you to sell or lease the machines covered by this notification until this recall has been performed on these machines. Substantial civil penalties apply to violations of this law.
