This notice applies to your Hyundai, VIN: XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that a defect which relates to motor vehicle safety exists in your vehicle, with the VIN shown above. Hyundai is conducting a safety recall in the United States to repair the Anti-lock Brake System (“ABS”) modules in certain model year 2013 – 2015 Hyundai Santa Fe Sport vehicles produced by Kia Motor Manufacturing Georgia (“KMMG”).

The purpose of this letter is to explain what the recall is about and to keep you informed of Hyundai’s recall implementation plan. We are currently making preparations to implement the safety recall remedy which when available, will be performed at no cost to you. We will send you another notification when the remedy is available.

What is the problem?

The subject vehicles are equipped with Anti-lock Brake System (“ABS”) modules that could leak brake fluid internally and cause an electrical short over time. The piston seals in the ABS module’s hydraulic valve unit could leak brake fluid into the electronic control unit (“ECU”). An electrical short in the ABS module could increase the risk of an engine compartment fire.

What should you do in the interim?

We appreciate your patience. Hyundai is currently making preparations to implement the recall remedy. You will receive a second notification letter when the remedy is available. **In the interim, park your vehicles outside, and if the Malfunction Indicator Light is illuminated in your vehicle, you should seek service at your Hyundai dealer as soon as possible.** For updated information regarding this recall, please visit:
