Dear Mercedes-Benz Sprinter Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2019-2020 Sprinter vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

**What is the CONCERN?**

On certain Sprinter vehicles that are equipped with front swivel-seats, the wires in the seat wiring harness could become jammed and damaged in the swivel-seat frame. In that case, the operation of the side airbag within the driver and/or front passenger seats seat could be adversely affected, which could cause the side airbag to deploy inadvertently or not deploy as designed in the event of a crash, increasing the risk of injury to vehicle occupants.

**What will your DEALER DO?**

An authorized Mercedes-Benz Sprinter dealer will inspect the routing of the front seat (left/right) seat wiring harnesses and will repair as necessary. **This service will be provided free of charge.** While the minimum repair time is approximately **2 hours**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time. You will not be charged for other service or repairs unless so requested
