STEERING:LINKAGES:KNUCKLE:SPINDLE:ARM

Potential Number of Units Affected: 295

Problem Description:

East Manufacturing Corp. (East Manufacturing) is recalling certain 2018-2021 MMX trailers equipped with Ingersoll Smart-Steer self steer axles. The steering arm may detach from the steering knuckle during certain low-speed, high-side loading maneuvers.

Consequence:

A detached steering arm may cause a loss of steering control. In addition, attachment hardware may fall and become a road hazard. Both of these scenarios can increase the risk of a crash.

Remedy:

Dealers will inspect the steering arm and apply welds, free of charge. The manufacturer has not yet provided a schedule for recall notification. Owners may contact East Manufacturing customer service at 1-352-861-3612.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.nhtsa.gov.

Information required by § 573.13 that is not in a general reimbursement plan shall be submitted in your company's report to NHTSA. If your company submits one or more general reimbursement plans, your company shall update each plan every two years (§ 573.13).
