

Part 573 Safety Recall Report

21V-582

Manufacturer Name : Black Tie Products**Submission Date :** AUG 26, 2021**NHTSA Recall No. :** 21V-582**Manufacturer Recall No. :** NR**Manufacturer Information :**

Manufacturer Name : Black Tie Products

Address : 2749 Jami St

Elkhart IN 46514

Company phone : 277-3234

Population :

Number of potentially involved : 10

Estimated percentage with defect : 100 %

Vehicle Information :

Vehicle 1 : 2020-2021 Black Tie ADA Drop OPTIMUM20

Vehicle Type : TRAILERS

Body Style : OTHER

Power Train : NR

Descriptive Information : The basis for the recall population was limited to the (10) of this specific model being built since the first in January of 2020. This model/design is different than those not included in the recall in the fact that they have a different tire/rim size installed. There are (10) affected trailers that are of this specific model.

Production Dates : JAN 22, 2020 - MAY 03, 2021

VIN Range 1 : Begin : 4b9ba2421le011017 End : 4b9ba2426me011029 Not sequential**Description of Noncompliance :**

Description of the Noncompliance : The certification label has incorrect tire/rim size called out. It also has the incorrect GAWR called out.

FMVSS 1 : 110 - Tire selection and rims

FMVSS 2 : 567 - Certification

Description of the Safety Risk : The incorrect tire/rim size and GAWR information may cause the trailer to be overloaded, increasing risk of a crash.

Description of the Cause : This was an oversight on our part as the tire size called out was our standard for another type/model of trailer.

Identification of Any Warning that can Occur : NR

Involved Components :

Component Name 1 : Certification Label

Component Description : Contains information specific to the trailer, including GVWR, GAWR, tire/rim size

Component Part Number : N/A

Supplier Identification :

Component Manufacturer

Name : NR

Address : NR

NR

Country : NR

Chronology :

This was a new design/model in 2020 that information was used on the Certification Label that were copied over from a previous design/model.

Description of Remedy :

Description of Remedy Program : Revise the Certification Label and send to the end customer to place on their trailer.

How Remedy Component Differs from Recalled Component : The revised Certification Label will reflect the correct information.

Identify How/When Recall Condition was Corrected in Production : The model was saved in the vin creation system so as to not allow for misinformation to be entered. It is now correct in the system that will be chosen for future trailers being built as this model.

Recall Schedule :

Description of Recall Schedule : Will send out notification letter to all (7) affected customers who own the (10) trailers along with the revised Certification Labels.

Planned Dealer Notification Date : AUG 09, 2021 - AUG 13, 2021

Planned Owner Notification Date : AUG 09, 2021 - AUG 13, 2021

* NR - Not Reported
