Number of potentially involved : 13

Estimated percentage with defect : 100 %

**Vehicle Information :**

Vehicle 1 : 2022-2022 BMW X4 xDrive30i

Vehicle Type : LIGHT VEHICLES

Body Style : SUV

Power Train : GAS

Descriptive Information : Approximately 13 vehicles may not conform to FMVSS 110 Section 4.3(c) and 4.3(d).

Basis for recall population determination: Vehicle assembly information and production process records were used to determine the start and end date of potentially affected vehicles.

Recall component difference to non-recall component: The tire information labels may contain tire size/pressure information which is different than the tire size and recommended cold tire inflation pressure of the specific tires which have been installed on the potentially affected vehicles.

Production Dates : JUL 29, 2021 - AUG 04, 2021

## Chronology :

On August 6, 2021, during an inspection at a vehicle assembly plant, BMW noticed that the tire size information on a vehicle's tire information label did not match the tires which were installed on the vehicle. An immediate vehicle hold was issued.

A review of engineering release information and data systems containing tire information was conducted. The review indicated that certain tire size/pressure information within a tire information data system was inappropriately used for certain vehicles. As a result, this led to tire information labels being printed and affixed to certain vehicles which were equipped with tires of a different size.

August 11, 2021, it was determined that potentially affected vehicles may not conform to FMVSS 110 Section 4.3(c) and 4.3(d). As a result, BMW decided to conduct a voluntary non-compliance recall.

BMW has not received any reports, nor is BMW otherwise aware, of any accidents or injuries related to this issue.

**Description of Remedy :**

Description of Remedy Program : The tire information label will be replaced.

Owners will be notified by First Class mail and instructed to take their vehicle to an authorized BMW center to have the remedy performed for free. If this condition was noticed on a potentially affected vehicle prior to this recall, the remedy would be covered by the BMW New Vehicle Limited Warranty program. Therefore, reimbursement for a pre-notification remedy re Part 573.13 and Part 577.11 is not necessary.
