Vehicle Information:

Vehicle 1: 2021-2021 Ram 1500
Vehicle Type: PICKUP TRUCK
Power Train: NR
Descriptive Information: Some 2021 MY Ram 1500 vehicles may be equipped with a trailer reverse steering control module ("TRSCM") that prevents the rearview image from displaying under certain conditions.

Production Dates: JUN 03, 2020 - SEP 12, 2021
VIN Range 1: Begin: NR End: NR

Description of Noncompliance:

Description of the Noncompliance: Federal Motor Vehicle Safety Standard ("FMVSS") 571.111 S6.2.6 requires that "The rear visibility system default to the rearview image being visible, and meet the requirements of FMVSS 571.111 S6.2.1 (field of view) and S6.2.2 (image size) at the beginning of each backing event, regardless of any modifications to the field of view that the driver had previously selected."

Suspect vehicles may not display the rearview image during a backing event under certain conditions.

FMVSS 1: 111 - Rear visibility
The vehicle operator will notice that the rearview image is not displayed if attempting to reference the image while backing. If this warning is not heeded, backing without verifying it is safe to do so could lead to an increased risk of injury to people outside the vehicle.

Identification of Any Warning that can Occur: The rearview image is not displayed when the vehicle is placed into reverse and the Electronic Throttle Control warning indicator will be illuminated in the instrument panel cluster.

Involved Components:

- Component Name 1: Module, Trailer Reverse Steering Control
- Component Description: Trailer Reverse Steering Control Module
- Component Part Number: 68423566AE, 68423566AF

Supplier Identification:

- Component Manufacturer
  - Name: Continental Automotive Systems
  - Address: 1 Continental Drive
    Auburn Hills Michigan 48326
  - Country: United States

Chronology:

- On October 27, 2021, FCA US LLC (“FCA US”) Technical Safety and Regulatory Compliance recognized that the TRSCM may fail internally resulting in the rearview camera image not displaying during a backing event, potentially not in compliance with FMVSS No. 111.

- On November 18, 2021, FCA US determined, through the Vehicle Regulations Committee, to conduct a voluntary safety recall of the affected vehicles.
Description of Remedy:

- **Description of Remedy Program:** FCA US will conduct a voluntary safety recall on all affected vehicles. Remedy is under development.
- **Description of Recall Schedule:**
  - **11/23/2021:** FCA US will notify dealers and begin notifying owners on or about 01/12/2022.
  - Planned Dealer Notification Date: JAN 12, 2022 - JAN 12, 2022
  - Planned Owner Notification Date: JAN 12, 2022 - JAN 12, 2022

* NR - Not Reported

How Remedy Component Differs from Recalled Component:

- The remedy component will be a TRSCM that meets FMVSS 111 Rear Visibility requirements.
- Identify How/When Recall Condition was Corrected in Production: NR
