

Part 573 Safety Recall Report

21V-968

Manufacturer Name : Lion Electric Company

Submission Date : FEB 02, 2022

NHTSA Recall No. : 21V-968

Manufacturer Recall No. : NR

Manufacturer Information :

Population :

Manufacturer Name : Lion Electric Company

Number of potentially involved : 168

Address : 921, chemin de la Riviere-du-Nord
Saint-Jerome, Quebec, Canada 00 J7Y
5G2

Estimated percentage with defect : 100 %

Company phone : 1-855-546-6706

Vehicle Information :

Vehicle 1 : 2017-2021 Lion LionC

Vehicle Type : BUSES, MEDIUM & HEAVY VEHICLES

Body Style : OTHER

Power Train : HYBRID ELECTRIC

Descriptive Information : We have determined the number of impacted vehicles with our database and these are all LionC vehicles produced and sold in the United States

Production Dates : APR 01, 2016 - DEC 10, 2021

VIN Range 1 : Begin :

NR

End : NR

☐ Not sequential

Description of Defect :

Description of the Defect : Failure of the 12V circuit breaker switch could result in loss of steering assist and loss of braking capability (primary and secondary systems). Lion has identified a series of corrections to the 12V circuit to improve the vehicle safety.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : The identified failure is evaluated as one that could occur a few times in the life of a vehicle impacted by this defect. The probability is therefore qualified as "unlikely". However, the impacts of such a failure could represent a human safety issue and a risk of injury and/or death in the event of complete loss of steering and brake assist, if the driver fails to use the emergency hand brake. In the event of such a failure, the hand brake system remains functional and fully operational.

Description of the Cause : NR

Identification of Any Warning NR
that can Occur :

Involved Components :

Component Name 1 : NR

Component Description : NR

Component Part Number : NR

Supplier Identification :

Component Manufacturer

Name : NR

Address : NR

NR

Country : NR

Chronology :

September 2, 2021: LionC accident on King Street in Sherbrooke.

September 30: Vehicle inspection by all parties involved at 241 Léger Street in Sherbrooke.

October 6: EPN 835 (Engineering Project Numbers) opening.

October 8: Beginning of the procedure of the preliminary tests.

November 7: Attempts to reproduce the cause of the accident at the vehicular level.
