

Part 573 Safety Recall Report

21V-992

Manufacturer Name : KZRV, L.P.**Submission Date :** DEC 18, 2021**NHTSA Recall No. :** 21V-992**Manufacturer Recall No. :** KZ-2021-08**Manufacturer Information :**

Manufacturer Name : KZRV, L.P.

Address : 0985 N 900W

Shipshewana IN 46565

Company phone : 800-768-4016x154/153

Population :

Number of potentially involved : 21

Estimated percentage with defect : 100 %

Vehicle Information :

Vehicle 1 : 2022-2022 KZ RV Connect

Vehicle Type : TRAILERS

Body Style :

Power Train : NR

Descriptive Information : The vehicles subject to this recall were built with the propane distribution system routed in an unprotected wheel well.

Production Dates : DEC 02, 2021 - DEC 07, 2021

VIN Range 1 : Begin :

NR

End : NR

 Not sequential**Description of Defect :**

Description of the Defect : The propane supply line is routed through a wheel well and is not adequately protected from debris.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : The propane supply system may be damaged by debris and could result in a fire or explosion resulting in personal injury or death.

Description of the Cause : Production error in which the propane system was improperly routed.

Identification of Any Warning that can Occur : None.

Involved Components :

Component Name 1 : Propane line

Component Description : Propane distribution system

Component Part Number : NR

Supplier Identification :

Component Manufacturer

Name : NR

Address : NR

NR

Country : NR

Chronology :

12/9/2021 - KZ PDI department identifies an LP supply line routed through the wheel well area on a Connect C211MKSE. LP line is too close to the tire tread path. 12/10/2021 - Production receives information and checks production units and yard inventory units. Production finds additional units in yard inventory. A hold is placed on yard inventory. 12/13/2021 - Inspection of yard inventory is completed. Defect is specific to the C211MKSE. A search is done for additional C211MKSE units produced. 12/14/2021 - Additional units are found at transport lots and repaired. it is determined there are affected units which have been shipped. 12/15/2021 - A safety committee meeting is held where a determination is made to issue a recall.

Description of Remedy :

Description of Remedy Program : Rerouting the propane supply lines.

How Remedy Component Differs
from Recalled Component : NR

Identify How/When Recall Condition
was Corrected in Production : The path of the propane lines has been rerouted away from the wheel well.

Recall Schedule :

Description of Recall Schedule : KZ will notify the dealers and owners of these recreational vehicles by letter. A final copy of the owner letter and dealer repair instructions will be provided to NHTSA.

Planned Dealer Notification Date : FEB 04, 2022 - FEB 04, 2022

Planned Owner Notification Date : FEB 04, 2022 - FEB 04, 2022

* NR - Not Reported
