Cummins Warranty Campaign Publication

Cummins Field Campaign is a set of proactive repair instructions to be followed on a specific population of engines.

Please read through the following Field Campaign Revision, #2550-A, "BES CM0904 EV104B V2G Isometer Safety Campaign for DCFC Units" and distribute it within your organization.

This is to revise and replace Campaign 2450, dated 30-Sep-21. This revision is to:

1) Change the Expiration date to: 19-Mar-2022.

C2450-A, BES CM0904 EV104B V2G Isometer Safety Campaign for DCFC Units
