

New Safety Recall Advanced Communication – Y07

FCA US LLC (FCA US) has announced a safety recall on certain 2018 through 2020 Model Year (JL) Jeep® Wrangler and 2020 (JT) Jeep® Gladiator vehicles equipped with a Manual Transmission.

VINs identified as being involved in this campaign are currently live and searchable. **Stop sale is in effect for the above-identified vehicles.**

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

In some circumstances, the clutch pressure plate may become overheated through friction, which may lead the pressure plate to rapidly fracture. When a pressure plate fractures, it may result in cracks or holes in the transmission case, allowing heated debris to be expelled from the transmission case. Heated debris expelled from the transmission case may come in contact with combustible materials in the vehicle, potentially leading to a fire. A fire can result in increased risk of occupant injury and injury to persons outside the vehicle. In addition, this condition may lead to generation of road debris, which may be a hazard to other drivers.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to reprogram the Powertrain Control Module (PCM) software to reduce engine torque capability when clutch assembly temperatures rise to a level that may damage the inner pressure plate, and reprogram the Instrument Panel Cluster (IPC). Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in the 2nd Quarter of 2021.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
