To: All General Motors Dealers

On February 5, 2021, General Motors released bulletins N212328760, N212328770, N212328780, N212328790 and N212328800 for Front Passenger Airbag Takata Inflators.

**N212328780 and N212328790 VINs Released to “Open” Status in IVH**

Today, the status of all VINs in the population of Priority Group 8 AND 9 (N192328780 & N212328790) are being changed from “Incomplete – Limited or No Parts” to “Open” in the Investigate Vehicle History (IVH) screen in Global Warranty Management. Letters will be sent to owners in Priority Group 8 beginning today and Priority Group 9 beginning October 1, 2021 informing them that the remedy is now available for their vehicle.

**What do I do with my stock of the old HD inflator kit, part number 84255088?**

The revisions of the bulletins to include these new single stage inflator parts has raised dealer questions regarding the disposition of the prior HD pickup part (p/n 84255088).

**THERE WILL NOT BE A SPECIAL RETURN FOR PART #84255088.**

This part is dangerous goods and cannot be returned. However, this part can and should continue to be used on recalls 15438 and 15817, which are for the 2007-08MY HD pickups.

We request that dealers continue to not order 84255088 for dealer stock. Only order when required for recalls 15438 and 15817.
