## **SAFETY RECALL NOTICE: 21V100**

TO: Affected KME Dealers

KME has decided that a defect which relates to motor vehicle safety exists in certain model year 2001-2020 KME vehicles manufactured from April 2001 through February 2020.

Vehicles included in this recall may have incorrect wire connections on the ABS control module located on the ladder trailer of a tractor-drawn aerial fire truck. The incorrect wiring may mean that the trailer brakes do not operate correctly in an ABS event.

KME or its dealers will inspect and verify the correct wiring and connections and replace any incorrect hardware found at no cost to the vehicle owner. If the owner already incurred costs to remedy this issue, they will be directed in the notification letter to contact KME for reimbursement. Estimated time for the remedy is 0.25 hours for inspection and 1.5 hours for repair if required.

Please be reminded that it is a violation of Federal law for you deliver a new motor vehicle or any new or used item of motor vehicle equipment covered by this notification until this defect has been remedied. Substantial civil penalties apply to violations of this law.

Your assistance with this recall is appreciated. Should you have any questions or concerns, please contact KME Customer Service at (570) 669-5230.

Sincerely,

KME, Inc.
