Subject: Stop Delivery Order for Upcoming Safety Recall N212331000 – One VIN in Dealer Inventory

Models: 2021 Chevrolet Camaro

To: All General Motors Dealers

STOP DELIVERY ORDER

Effective immediately, stop the delivery of certain 2021 model year Chevrolet Camaro vehicles in new or used vehicle inventory. General Motors has notified the National Highway Traffic Safety Administration (NHTSA) about an upcoming safety recall that involves these vehicles. The GM recall number is N212331000. The total number of involved vehicles for this safety recall is 8.

It is a violation of federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification until the defect is remedied.

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2021 model year Chevrolet Camaro vehicles. The axle shaft in these vehicles may be missing a retaining ring, which can allow the axle shaft to separate while driving. If the axle shaft separates, the vehicle may lose propulsion, increasing the risk of a crash.

To correct this condition, dealers will replace the left or right axle shaft.

Until further instructions are received, involved vehicles that are in dealers' possession (new or used vehicle inventory, GM Certified Used, courtesy transportation vehicles, dealer shuttle vehicles, etc.) must be held and not delivered to customers, dealer-traded, released to auction, used for demonstration purposes or any other dealer use. All GM Certified Used vehicles currently in the dealers' inventory within the Certified Pre-Owned Inventory System (CPOIS) will be de-certified.

The Investigate Vehicle History (IVH) screen in the Global Warranty Management (GWM) system will be updated for this upcoming recall on March 18, 2021. This action has been taken to assist dealers with determining which vehicles are involved so they can properly respond to customer inquiries.

A list of involved vehicles that have been identified as being in dealer new vehicle inventory is attached to this message. It is sorted by dealer Business Associate Code (BAC) for easy reference. Your dealership's BAC will not be listed if none of the involved vehicles are currently in your new vehicle inventory. To identify involved vehicles in dealer used inventory, run an Open VIN Report or Field Action Initiation

Report using Field Action Reports-GFAM within the Maxis Dealer Application in GlobalConnect.

Question and Answer Document (Q&A)

Attached to this message you will find a document that addresses the ten most likely questions customers may have regarding this Safety Recall. Please use this information as an aid to confidently answer customer concerns.

Until the recall bulletin is released, the Investigate Vehicle History (IVH) screen in the Global Warranty Management (GWM) system will display "N/A" under Release Date and "Incomplete – Remedy not yet available" under Status. This means the required repair is not yet available and dealers should not attempt to perform any repairs.

We are working with the supplier to obtain the required parts as quickly as possible. When the sufficient quantity of parts are available, the recall bulletin will be released, and dealers can begin repairing vehicles.
