SUMMARY

On March 25, 2021, American Honda notified NHTSA of a stop sale and safety recall for certain 2018-2019 CR-V, 2019-2020 Accord, Civic Hatchback, Insight, 2019 Accord Hybrid, Civic, Civic Si, Civic Type R, Fit, HR-V, Odyssey, Passport, Pilot and Ridgeline units for fuel pump modules manufactured with defective impellers. A defective impeller may cause the fuel pump to become inoperative which could prevent the engine from starting or stall the engine while driving, increasing the risk of a crash. Refer to your **eResponsibility report or do an iN VIN status inquiry to determine which units in your inventory are affected.**

Failure to repair a vehicle as necessary prior to sale may subject your dealership to claims or lawsuits.

As always, be sure to do an iN VIN status inquiry for all vehicles passing through your dealership to determine eligibility for any open campaigns.
