Background

Issue	Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has determined that on certain Model Year ("MY") 2019 - 2021 A-Class, CLA-Class, CLS-Class, E-Class, GLA-Class, GLB-Class, GLC-Class, GLE-Class, GLS-Class, and GT-Class (118, 167, 177, 213, 238, 247, 253, 257, 290 platforms, respectively) vehicles, the MBUX multimedia system software might not meet specifications. Under very specific conditions, the MBUX multimedia system might not start and the display might remain black, or could reboot unintentionally after 50 seconds of initial startup. Accordingly, the rearview camera image might not be displayed or the display might be interrupted which could increase a risk of a crash or injury.
What We're Doing	MBUSA will conduct a voluntary recall. Either an authorized Mercedes-Benz dealer or an over-the-air (“OTA”) update will be performed to update the software of the MBUX multimedia system on the affected vehicles. This recall will be launched in phases based on the subscription status of the vehicle. Further details will be communicated at the launch of each phase. All customers will receive official recall notification letters following federal regulations.
Parts	Parts are not required for repair. However, the current remedy is not available at this time. An additional notification will be sent once the remedy is available.
