Dearborn, Michigan 48121

May 25, 2021

TO: All U.S. Ford and Lincoln Dealers

**SUBJECT: NEW VEHICLE DEMONSTRATION / DELIVERY HOLD -
Safety Recall 21S25**

Certain 2021 Model Year 3.5L F-150 with Max Trailer Tow and 3.5L HEV Vehicles
Rear Driveshaft Inspection

AFFECTED VEHICLES

Vehicle	Model Year	Assembly Plant	Build Dates
F-150	2021	Dearborn Truck	September 25, 2020 through March 5, 2021
		Kansas City	November 2, 2020 through March 5, 2021

Affected vehicles are identified in OASIS and FSA VIN Lists.

REASON FOR THIS SAFETY RECALL

In some of the affected vehicles, it is possible an improperly assembled two-piece driveshaft was installed in the vehicle. The circlip used to secure the connection between the two driveshaft halves may not have been properly installed, potentially affecting connection of the two halves. Separation of the driveshaft can result in a loss of motive power without warning while driving, or unintended vehicle movement in park if the parking brake is not applied, increasing the risk of crash. Customers may hear a loud clunking or banging noise or experience a vehicle that will only move in 4WD.

SERVICE ACTION

Before demonstrating or delivering any new in-stock vehicles involved in this recall, dealers are to inspect the driveshaft and if necessary, replace the driveshaft. This service must be performed on all affected vehicles at no charge to the vehicle owner.

OWNER NOTIFICATION MAILING SCHEDULE

Owner letters are expected to be mailed the week of June 14, 2021. Dealers should repair any affected vehicles that arrive at their dealerships, whether or not the customer has received a letter.

PLEASE NOTE:

Federal law requires dealers to complete this recall service before a new vehicle is delivered to the buyer or lessee. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Correct all vehicles in your new vehicle inventory before delivery.

QUESTIONS & ASSISTANCE

For questions and assistance, contact the Special Service Support Center (SSSC) via the SSSC Web Contact Site. The SSSC Web Contact Site can be accessed through the Professional Technician System (PTS) website using the SSSC link listed at the bottom of the OASIS VIN report screen or listed under the SSSC tab.

Sincerely,

A handwritten signature in black ink that reads "D. Johnson". The signature is written in a cursive style with a large, looped initial "D".

David J. Johnson

Safety Recall 21S25**

Certain 2021 Model Year 3.5L F-150 with Max Trailer Tow and 3.5L HEV Vehicles
Rear Driveshaft Inspection

OASIS ACTIVATION

OASIS will be activated on May 25, 2021.

FSA VIN LISTS ACTIVATION

FSA VIN Lists will be available through <https://web.fsavinlists.dealerconnection.com> May 25, 2021.
Owner names and addresses will be available by July 9, 2021.

NOTE: Your FSA VIN Lists may contain owner names and addresses obtained from motor vehicle registration records. The use of such motor vehicle registration data for any purpose other than in connection with this recall is a violation of law in several states, provinces, and countries. Accordingly, you must limit the use of this listing to the follow-up necessary to complete this recall.

SOLD VEHICLES

- Ford has not issued instructions to stop selling/delivering or driving used vehicles under this safety recall. Owners should contact their dealer for an appointment to have their vehicles remedied as soon as practicable. Owners can continue to safely drive their vehicles.
- Immediately contact any of your affected customers whose vehicles are not on your VIN list but are identified in OASIS. Give the customer a copy of the Owner Notification Letter (when available) and schedule a service date.
- Correct other affected vehicles identified in OASIS which are brought to your dealership.
- Dealers are to prioritize repairs of customer vehicles over repairs of new and used vehicle inventory.

STOCK VEHICLES

- Correct all affected units in your new vehicle inventory before delivery.
- Use OASIS to identify any affected vehicles in your used vehicle inventory.

DEALER-OPERATED RENTAL VEHICLES

The Fixing America's Surface Transportation (FAST) Act law effective June 2016 prohibits a rental company from selling, renting or leasing vehicles subject to a safety or compliance recall. Please consult your legal counsel for legal advice.

TITLE BRANDED / SALVAGED VEHICLES

Affected title branded and salvaged vehicles are eligible for this recall.

OWNER REFUNDS

Refunds are not approved for this program.

RENTAL VEHICLES

Dealers are pre-approved for up to 2 days for a rental vehicle, if parts are required to be ordered for repairs. Follow Extended Service Plan (ESP) guidelines for dollar amounts. Rentals will only be reimbursed for the days the vehicle is at the dealership for part replacement. Prior approval for more than 2 rental days is required from the SSSC. Contact the SSSC via the SSSC Web Contact Site for consideration and approval if appropriate.

Certain 2021 Model Year 3.5L F-150 with Max Trailer Tow and 3.5L HEV Vehicles
Rear Driveshaft Inspection

ADDITIONAL REPAIR (LABOR TIME AND/OR PARTS)

Additional repairs identified as necessary to complete the FSA should be managed as follows:

- For related damage and access time requirements, refer to the Warranty and Policy Manual / Section 6 – Ford & Lincoln Program Policies / General Information & Special Circumstances for FSA's / Related Damage.
- For vehicles within new vehicle bumper-to-bumper warranty coverage, no SSSC approval is required, although related damage must be on a separate repair line with the "Related Damage" radio button checked.
 - Ford vehicles – 3 years or 36,000 miles
- For vehicles outside new vehicle bumper-to-bumper warranty coverage, submit an Approval Request to the SSSC Web Contact Site prior to completing the repair.

CLAIMS PREPARATION AND SUBMISSION

- **Claim Entry:** Enter claims using Dealer Management System (DMS) or One Warranty Solution (OWS) online.
 - When entering claims, select claim type 31: Field Service Action. The FSA number 21S25 is the sub code.
 - For additional claims preparation and submission information, refer to the Recall and Customer Satisfaction Program (CSP) Repairs in the OWS User Guide.
- **Related Damage/Additional labor and/or parts:** Must be claimed as Related Damage on a separate repair line from the FSA with same claim type and sub code as described in Claim Entry above.

IMPORTANT: Click the Related Damage Indicator radio button.

Rentals: For rental vehicle claiming, follow Extended Service Plan (ESP) guidelines for dollar amounts. Enter the total amount of the rental expense under Miscellaneous Expense code RENTAL.

Certain 2021 Model Year 3.5L F-150 with Max Trailer Tow and 3.5L HEV Vehicles
Rear Driveshaft Inspection

PARTS REQUIREMENTS / ORDERING INFORMATION (continued)

Order the parts below through normal order processing channels:

*The parts listed in the table below are **ONLY NEEDED FOR DRIVESHAFT REPLACEMENT***

Part Number	Description	Order Quantity	Claim Quantity
N800594-S100	Driveshaft rear bolts 4x4 or 4x2 trucks (4 required - 4/pkg)	1	4
W715579-S439	Center bearing bolts 4x4 or 4x2 trucks (2 required - 4/pkg)	1	2
N800594-S100	Driveshaft front bolts – 4x2 trucks ONLY (4 required – 4/pkg)	1	4

To guarantee the shortest delivery time, an emergency order for parts must be placed.

DEALER PRICE

For latest prices, refer to DOES II.

PARTS RETENTION, RETURN, & SCRAPPING

Follow the provisions of the Warranty and Policy Manual, Section 1 - WARRANTY PARTS RETENTION AND RETURN POLICIES. If a replaced part receives a scrap disposition, the part must be scrapped in accordance with all applicable local, state and federal environmental protection and hazardous material regulations. Federal law prohibits selling motor vehicle parts or components that are under safety, compliance, or emissions recall.

EXCESS STOCK RETURN

Excess stock returned for credit must have been purchased from Ford Customer Service Division in accordance with Policy Procedure Bulletin 4000.

REPLACED FSA PARTS INSPECTION AND SIGN OFF

Effective March 1st 2021 all parts replaced as part of an FSA repair with a repair order open date of March 1st 2021 or later must be inspected and signed off on the repair order by a member of your dealers fixed operations management team or an employee the task has been delegated to. If the task is to be delegated to a non-management employee, the employee needs to be someone other than the technician who completed the repair and needs to understand the importance of completing this task consistently and accurately.

- All parts replaced as part of an FSA repair should be returned to the parts department following the Warranty Parts Retention and Return Policies.
- Inspect the replaced parts to verify the FSA repair was completed.

NEW VEHICLE DEMONSTRATION / DELIVERY HOLD -

Safety Recall 21S25

Certain 2021 Model Year 3.5L F-150 with Max Trailer Tow and 3.5L HEV Vehicles
Rear Driveshaft Inspection

REPLACED FSA PARTS INSPECTION AND SIGN OFF (continued)

- If the FSA repair is found to be complete, the designated employee signs the repair order line or parts return stamp area (electronic or hand signed) for the FSA repair indicating the parts were inspected and validated to have been replaced.
- After the parts have been inspected, they should be handled based on the guidance in the parts status report in the Online Warranty System (Hold, Return, CORE, Scrap, etc.).
- This process is subject to review during warranty audits for FSA repairs with a repair order open date of March 1, 2021 or later. Any eligible FSA claims requiring parts replacement, found not to have been inspected and signed off during a warranty audit will be subject to chargeback and consideration for enrollment into the Dealer Incomplete Recall Repair Process.

Note: Other approvals (electronic or handwritten) for add-on repair lines, dealer owned vehicle repairs, and repeat repairs do not qualify as FSA parts inspection approvals. The post repair FSA parts inspection process (electronic or handwritten) is independent from other warranty approval requirements. The approval by the designated employee implies that the FSA parts were found to be replaced and must be able to be clearly identified on the Repair Order. If multiple FSA's require approval on a single Repair Order, each applicable occurrence will require individual post repair approval by the designated employee.

CERTAIN 2021 MODEL YEAR 3.5L F-150 WITH MAX TRAILER TOW AND 3.5L HEV VEHICLES REAR DRIVESHAFT INSPECTION

SERVICE PROCEDURE

1. Locate and record the Rear Driveshaft serial number on the wrap around label, located on the front half of the driveshaft. If needed, use a small dry rag to clean it off. To prevent removal of ink, do not use brake cleaner to clean off the serial number. See Figure 1.

FIGURE 1

2. Verify if the recorded serial number is listed in the suspect serial numbers in Attachment IV. Is the recorded serial number on the suspect serial numbers list in Attachment IV?

Yes – Does not pass inspection. Document Rear Driveshaft serial number with a photograph, and then proceed to Step 3.

No – Dealers must submit their photo(s) via Concern Reports using the "Report a Vehicle Concern" process. Concern Reports may be submitted via Web Based PTS or through Mobile PTS using any mobile device (e.g., tablets, smart phones). Recall is complete.

3. Calibrate the Anglemaster II Driveline Inclinator, or similar inclinometer, by placing it on a clean, flat level section of the frame rail. See Figure 2.

FIGURE 2

4. Moving the inclinometer to the coupling shaft, measure and record the angle, keeping the inclinometer at the 6 o'clock position. (Angle 1). See Figure 3.

FIGURE 3

5. Moving the inclinometer to the rear tube, ensuring to use a flat surface of the rear tube, measure and record the angle (Angle 2). See Figure 4.

FIGURE 4

6. Using a digital caliper, measure and record the distance between the two service grooves, located on each side of the u-joint. This should be done at the bottom side of the driveshaft only (at the 6 o'clock position). See Figures 5 and 6.

NOTE: A measurement NOT taken at the 6 o'clock position WILL CHANGE the distance and COULD effect the outcome.

FIGURE 5

FIGURE 6

7. Send in recorded data (Angle 1, Angle 2, and distance measurements) as well as the photograph of the serial number to SSSC for determination as to whether or not the Rear Driveshaft needs to be replaced. SSSC will release driveshaft order based on need.

8. Did SSSC determine that a new Rear Driveshaft is needed?

Yes – Replace the Rear Driveshaft. Follow Workshop Manual (WSM) procedures in Section 205-01.

No – Rear Driveshaft Replacement is not required. Recall is complete.

NEW VEHICLE DEMONSTRATION / DELIVERY HOLD -

Safety Recall 21S25

Certain 2021 Model Year 3.5L F-150 with Max Trailer Tow and 3.5L HEV Vehicles
Rear Driveshaft Inspection

AFFECTED VEHICLES

The table starting on page 2 contains a list of driveshaft serial numbers. Vehicles with a suspect serial number driveshaft will require an additional inspection be performed, per Attachment III, the results to be submitted to the SSSC for determination if driveshaft replacement is required.

Once the serial number has been located on the driveshaft, perform a lookup in this attachment using the "ctrl" + "F" keys on your computer's keyboard. Ensure to accurately type in the serial number (without spaces) to see if it is on this list. If it is, submit a contact to the SSSC with the additional information required to determine if driveshaft replacement is required, per Attachment III.
