Re: ***WRG21 Campaign & 2.4 Turbo Fuel Pump X4202XC220***

Please be advised that there is a discrepancy in our EPC catalog for some engine sizes under the Vin breakdown that our IT team is working on.

DO NOT use the catalog as a guide for the engine size when ordering a fuel pump for the WRG21 campaign.

To locate the correct engine size for ordering the proper fuel pump for WRG21, please look at the open recall/campaign link under vehicle inquiry for the correct engine size to make sure you are ordering the correct fuel pump for the vehicle in question.

We apologize for the inconvenience.
