SUBJECT: NEW VEHICLE DEMONSTRATION / DELIVERY HOLD - Advance Notice Safety Recall 21S38

Certain 2021-2022 Model Year Bronco Sport, and 2021 Corsair and Escape Vehicles

Fuel Delivery Module (FDM) Line Leak Internal to Fuel Tank

AFFECTED VEHICLES

Vehicle	Model Year	Assembly Plant	Build Dates
Escape	2021	Louisville	May 6, 2021 through May 25, 2021
Corsair	2021	Louisville	May 13, 2021 through May 25, 2021
Bronco Sport	2021-2022	Hermosillo	May 21, through July 20, 2021

Affected vehicles are identified in OASIS and FSA VIN Lists.

REASON FOR THIS SAFETY RECALL

In all of the affected vehicles, the fuel delivery modules (FDM) may have a leak in the fuel tube due to a thin fuel tube wall. The leak will be internal to the fuel tank. An FDM fuel tube leak internal to the fuel tank will cause low fuel system pressure, which may lead to engine stall and/or no start due to insufficient fuel. An unexpected engine stall while driving may increase the risk of a crash.

SERVICE ACTION

DO NOT DEMONSTRATE OR DELIVER any new in-stock vehicles involved in this Safety Recall. A complete Dealer Bulletin will be provided to dealers the week of September 20, 2021 when it is anticipated that parts ordering information and repair instructions will be available to support this safety recall.

IMPORTANT: Dealers should open a Repair Order (RO) only when a full dealer bulletin is published. Opening an RO against an Awareness or Advance Notice will result in warranty rejections against a recall.

CUSTOMER NOTIFICATION

Owners of record will be notified via first-class mail after repair instructions and parts ordering information have been provided to dealers.

PLEASE NOTE:

Federal law requires dealers to complete this recall service before a new vehicle is delivered to the buyer or lessee. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Correct all vehicles in your new vehicle inventory prior to delivery.
