****** Campaign Summary ******

Nissan is committed to the safety and security of our customers and their passengers. Nissan has notified the National Highway Traffic Safety Administration (NHTSA) and Transport Canada that it is recalling certain MY2022 Nissan Pathfinder vehicles to inspect and, if necessary, replace the second row seats.

Due to a supplier manufacturing concern that has since been corrected, the second row seat assemblies may have insufficient welds.

- PC845 - Certain 2022 Pathfinder vehicles equipped with a driver side second row captain’s seat may have a seat frame with a separated weld.
- PC846 - Certain 2022 Pathfinder vehicles equipped with a driver side second row bench seat (60%)

may have a seat frame with a burn through hole due to the welding process.

- PC847 - Certain 2022 Pathfinder vehicles equipped with a passenger side second row bench seat (40%) or a passenger side second row captain's chair may have a seat frame with a porous weld.

In the event of a crash with this condition, the seat back may fail and potentially increase the risk of injury to a passenger.

Affected vehicles **are subject** to stop sale and are either currently in dealer inventory or assigned and in transit to the dealer.

****** What Dealers Should Do******

1. Verify campaign applicability using Service Comm or DBS National Service History – Open Campaign I.Ds:
 - New vehicles in dealer inventory can also be identified using DBS (Sales-> Vehicle Inventory, and filter by Open Campaign).
 - Refer to NPSB 15-460 for additional information
 - **Please continue to check newly arriving inventory for campaign applicability.**
2. Dealers **must not sell, lease, trade, rent or loan** any vehicles in dealer inventory affected by this recall campaign until after the vehicle has been repaired.
3. Once remedied, dealers should submit the claim, using the claims coding provided, and release the vehicle.

This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in dealer inventory. If a VIN subject to this recall campaign was part of a dealer trade, the letter associated with that VIN should be forwarded to the appropriate dealer for service completion.
