

Recall 213 – Brake Master Cylinder Low Brake Pedal - Dealer Best Practice – Remedy Not Available

December 07, 2021

Updates to this Document	Date
<ul style="list-style-type: none">Remedy Not Available	12/07/2021

As required by federal law, dealers must not deliver new vehicles for sale or for lease to customers until all open recalls have been performed. Dealers must also perform all open recalls on used vehicles, demo, and rental vehicles prior to placing them into customer use and whenever an affected vehicle is in the shop for any maintenance or repair.

To see if your vehicle is affected, please access Hyundai Motor America’s “Vehicle Information” Screen via WEBDCS to identify open campaigns/recalls.

For this recall, please note that there are no new vehicles currently in dealer stock.

Description of Campaign:

Hyundai is initiating recall campaign 213, a safety recall to repair a condition involving the service brake system in certain 2021MY Hyundai Accent vehicles in the U.S market. Hyundai is conducting this action to ensure the safety of its vehicles for Hyundai customers.

The brake master cylinder in the subject vehicles may have been produced with sharp edges on one of the master cylinder’s secondary inner cup seal seats, resulting in premature wear of the inner cup seal. Worn inner cup seals could reduce hydraulic pressure applied by the master cylinder resulting in reduced braking function at the wheels. The driver may experience longer brake pedal travel, change in pedal feel, and extended stopping distance, increasing the risk of a crash.

Affected Vehicles:

- Certain 2021 model year Hyundai Accent produced from September 21, 2020 to July 01, 2021 by Kia Motors Manufacturing Mexico (“KMM”)

Remedy Information: Remedy is currently under development.

Recommended Alternative Transportation:

It is recommended that SRCs are made available for customers that are concerned with the safe operation of their vehicle prior to release of final remedy. Additionally, it is advisable to utilize a SRC while final remedy repairs are being completed.

Best Practice Checklist

Additional items will be added to the checklist once a remedy becomes available.

Reservation: Did you check WebDCS for additional campaigns or recalls?

- Yes
- No

Reception: Did you offer the customer Alternative Transportation?

- Yes
- No

[Additional Training & Resources](#)

Hyundai Learning Portal

Remedy is currently under development. Applicable training courses related to this recall, if applicable, will be provided once a remedy has been released by HMA.

Hyundaidealer.com

A WebDCS announcement will be provided on Hyundaidealer.com informing dealers of a remedy not yet available for this recall.

Warranty

Additional warranty information will be provided once a remedy has been released by HMA.

Parts

Parts, if applicable, will be provided once a remedy has been released by HMA.

[Customer FAQ](#)

Q1: What is the safety concern?

A1: Extended stopping distance could increase the risk of a crash.

Q2: What will be done during the recall service at the dealer?

A2: All owners of the subject vehicles will be notified by first class mail with instructions to bring their vehicles to a Hyundai dealer to have the brake master cylinder replaced. This remedy will be offered at no charge. Hyundai will provide reimbursement to owners for repairs according to the plan submitted to NHTSA on May 16, 2018.

Customer Notification

Owners will be notified beginning in late January 2022. NHTSA has been notified of this recall.
