

IMPORTANT SAFETY RECALL NOTICE

To: All Dealers

Dennis Eagle Inc. has decided that a defect which relates to motor vehicle safety potentially exists regarding FMVSS 101 – Controls and Displays. This applies to the trucks produced with the VIN numbers listed below. Accordingly a Recall to address this issue is being initiated effective from January2022

The defect involves the 'bulb warning light' that is an integral part of the Instrument Cluster. It is possible that the warning light will illuminate telling the user that there is an issue with a vehicle light/lights not working even if all the lights are all working correctly. The rework will involve updating the Actia Instrument Cluster software. For help and support with this rework please contact Dennis Eagle Inc. on 813.440.8136 or email service@dennis-eagle.com

The respective Owners of the trucks listed below are being notified about the Recall and will be instructed to contact their respective Dennis Eagle Dealer to arrange for this rework to be completed. The rework can either be carried out at customers premises or at the Dealership depending on the individual customer's requirements. Dennis Eagle Inc will reimburse the costs of the rework and Dealers should contact Shelby Pearson prior to the work being completed to obtain authorization of the costs. He can be contacted via the number detailed above or via email Shelby.Pearson@dennis-eagle.com.

Below is a list of the affected vehicles in the field:
