

IMPORTANT SAFETY RECALL

Re: NHTSA Recall 21E-001

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Automann has decided that its 562.9000 warning triangle kits do not comply with the requirements of Federal Motor Vehicle Safety Standard (FMVSS) number 125, "Warning Devices."

What Is The Concern?

Automann has determined that its 562.9000 warning triangle kits may not conform to the color, reflectivity and stability requirements of the standard, which can cause the vehicle to be less visible to oncoming traffic, and can increase the risk of a crash.

This recall only affects warning triangle kits produced by Torch Industrial Co., Ltd and sold as aftermarket parts. The affected units contain the "Automann" logo on the outside of the container. Only model number 562.9000 is affected.

What Should You Do?

Please contact the distributor from which you purchased the warning triangle kits. All warning triangle kits returned to the distributor (postage pre-paid) will be given a credit for the full purchase price.

What To Do If You Have Questions?

If you have any questions about this notice, or need assistance please contact your local distributor of Automann products.

If you are still having difficulty getting your equipment remedied in a reasonable period of time and without charge, you may contact the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, S.E. Washington D.C. 20590 or call the toll free hotline at 1-800-424-9153 or go to www.nhtsa.gov.

We apologize for this inconvenience and appreciate your cooperation with this matter.

Sincerely,

Brett Wagaman
Product Manager
