# IMPORTANT SAFETY RECALL

## Brake Clip

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US has decided that a defect, which relates to motor vehicle safety, exists in certain [2021 Model Year (DS) Ram 1500 Pickup] vehicles equipped with non-adjustable pedals.

### RECALL DESCRIPTION

The brake clip which retains the master cylinder push rod to the brake pedal on your vehicle <sup>[1]</sup> may be missing. A vehicle built without the clip could allow the master cylinder push rod to disconnect from the brake pedal pin, separating the brake pedal from the brake system. **A disconnected master cylinder push rod results in the driver being unable to apply the service brakes using the brake pedal, which can cause a vehicle crash without prior warning. The parking brake function is unaffected.**

### YOUR VEHICLE HAS ALREADY BEEN REMEDIED

According to our service records, the brake clip has already been inspected or installed on your vehicle. Therefore, your vehicle has been remedied and this safety recall does not need to be performed.

**This notification is provided for your records only. There is nothing more that you need to do.**

### WHAT IF I HAVE QUESTIONS REGARDING THIS RECALL?
