**NHTSA RECALL 21V-186**

Dear Rogue Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Nissan has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2021 Nissan Rogue vehicles. Our records indicate that you own or lease the Nissan vehicle subject to this recall as identified by the VIN on the inside of this notice.

**Reason for Recall**  
**Motivo del Retiro**

Certain Rogue vehicles may have been manufactured with the incorrect wheel nuts. When repeatedly tightened during tire or wheel changes, the incorrect wheel nuts may loosen, causing excess tire and wheel vibration. This vibration may cause the wheel studs to break, potentially resulting in tire and wheel assembly separation from the vehicle, which could increase the risk of a crash.

**What Nissan Will Do**  
**Qué Hará Nissan**

Your Nissan dealer will inspect all twenty wheel nuts on all four (4) wheels. If an incorrect wheel nut is found on your vehicle, your dealer will replace all wheel nuts on the affected side(s) of the vehicle. This free service should take less than one (1) hour to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.
