Navistar has decided that a defect which relates to motor vehicle safety exists in certain 2021 LT® and RH® series trucks built 02/11/2020 thru 07/16/2020 with feature code 04AAR (Park Brake Chambers; spring type, T20/24 Sq. In. for Air Disc brakes).

**REASON FOR THIS RECALL**

The spring inside the spring brake chamber may allow the pressure plate to shift and wear a hole through the diaphragm resulting in an air leak.

**RISK TO MOTOR VEHICLE SAFETY**

An air leak in the spring brake chamber may result in an uncommanded application of the parking brakes and increase the risk of a vehicle crash.

**DEFECT REMEDY**

The repair will involve an inspection and possible replacement of all spring brake chambers found with a shifted pressure plate. Authorized repair locations have parts and instructions to repair your vehicle. The repair will be performed free of charge and take approximately 30 minutes to 2 hours to complete.
