Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG (“MBAG”), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year (“MY”) 2021 C-Class, CLS-Class, E-Class, G-Class, GLC-Class, and GT-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

On certain MY 2021 C-Class, CLS-Class, E-Class, G-Class, GLC-Class, and GT-Class vehicles, the electrical contact inside the seat position switch of the front seats might not meet current production specifications. In this case, the seat position switch signal could be missing or incorrect, which could result in the driver and passenger airbag as well as the seatbelt force limiter not activating properly in the event of a crash. Thus, the risk of an injury would be increased.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will replace the seat position switches on the affected vehicles. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be less than **1 hour**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle which may increase the required working time.
