IMPORTANT SAFETY RECALL

Transmission Oil Cooler Hose

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US has decided that a defect, which relates to motor vehicle safety, exists in certain [2021 (KL) Jeep Cherokee] vehicles.

RECALL DESCRIPTION

The Transmission Oil Cooler (TOC) hose on your vehicle ^[1] may have been manufactured with incorrectly cured rubber. An incorrectly cured TOC hose may have a weakened hose wall that can rupture, allowing transmission fluid to leak. Transmission fluid leaking from a TOC hose may contact a competent ignition source and lead to a vehicle fire. **A vehicle fire may increase the risk of injury to occupants and persons outside of the vehicle, as well as property damage.**

YOUR VEHICLE HAS ALREADY BEEN REMEDIED

According to our service records, the TOC hose has already been replaced on your vehicle. Therefore, your vehicle has been remedied and this safety recall does not need to be performed.

This notification is provided for your records only. There is nothing more that you need to do.

WHAT IF I HAVE QUESTIONS REGARDING THIS RECALL?

If you believe the TOC hose in your vehicle ^[2] has not been replaced or have questions or concerns which your dealer is unable to resolve, please contact the FCA Group Recall Assistance Center at either fcarecalls.com or 1 800-853-1403.

WHAT IF I ALREADY PAID TO HAVE THIS REPAIR COMPLETED?

If you have already experienced this specific condition and have paid to have it repaired, you may visit www.fcarecallreimbursement.com to submit your reimbursement request online. ^[3] Once we receive and verify the required documents, reimbursement will be sent to you within 60 days. If you have had previous repairs performed and/or already received reimbursement, you may still need to have the recall repair performed.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
