

IMPORTANT SAFETY RECALL

August 2021

This notice applies to your vehicle, **VIN:** _____

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2017-2019 model year Chevrolet Bolt EV vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your vehicle is involved in GM safety recall N212343881.
- Based on manufacturing records, we have identified your vehicle battery as one built within a date range scheduled for **priority repair** under this recall.
- We have determined that the lithium ion battery modules in your vehicle should be replaced with new lithium ion battery modules.
- We are pleased to inform you we will have parts available to begin repairs by the end of August.
- **You should contact your Chevrolet EV certified dealer on or after August 23 to arrange an appointment.**
- This service will be performed for you at **no charge**.

Why is your vehicle being recalled?

Certain vehicles were built with high voltage cells produced at LG Chem's Ochang, Korea facility that pose a risk of fire when charged to full, or very close to full, capacity. Experts from GM and LG have identified the simultaneous presence of two manufacturing defects in the same battery cell as the root cause of these battery fires.

What will we do?

Your GM dealer will replace the lithium ion battery modules in your vehicle with new lithium ion battery modules. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 3 hours 30 minutes.

What should you do?

Until this recall repair is performed, you should take the following interim steps:

1. You should, whether or not your vehicle received the recall remedy in GM safety recall N202311731, return your vehicle to the 90% state of charge limitation using Hilltop Reserve

mode (for 2017-2018 model years) or Target Charge Level (for 2019 model year) mode. If you are unable to successfully make these changes, or do not feel comfortable making these changes, visit your Chevrolet EV dealer to have these adjustments completed, **free of charge**.

2. Charge your vehicle more frequently and avoid depleting your battery below approximately 70 miles (113 KM) of remaining range, where possible.
3. **Continue to park your vehicle outside immediately after charging and do not leave your vehicle charging indoors overnight.**

Do you have questions?

If you have questions or concerns that your dealer is unable to resolve, please contact the Chevrolet EV Concierge team at 833-EVCHEVY (833-382-4389). Hours of operation are Monday through Friday, 8:00 AM to 12:00 AM ET or Saturday and Sunday, 12:00 PM to 9:00 PM ET.

If after contacting your dealer and the Chevrolet EV Concierge, you are still not satisfied we have done our best to remedy this condition without charge and within a reasonable time, you may wish to write the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590, or call the toll-free Vehicle Safety Hotline at 1.888.327.4236 (TTY 1.800.424.9153), or go to <http://www.safercar.gov>. The National Highway Traffic Safety Administration Campaign ID Number for this recall is 21V560.

Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.
