SAFETY RECALL N598: Tail Lamp Inoperative

**Vehicle Affected: Land Rover Defender
Model Year: 2020-2022**

National Highway Traffic Safety Administration (NHTSA) Recall Number: 21V-435

Dear Land Rover Defender Owner:

This notice is sent to you in accordance with the *National Traffic and Motor Vehicle Safety Act*. Land Rover has decided that a defect which relates to motor vehicle safety exists in certain 2020-2022 model year Land Rover Defender vehicles.

Your vehicle is included in this Recall action.

What is the reason for this program?

Should an intense light source shine directly on the rear of your vehicle at a certain angle, the brake lamps, turn signal indicators, and/or the tail lamps may stop working. In the case of turn signal indicators and brake lamps, the condition resets without driver intervention and operation will resume absent of the intense light source. In the case of the tail lamp operation, the lamps remain off until either the ignition is switched off and on or the lamps are switched off and then on via the lighting control switch.

Where the tail lamp system fails to illuminate, other road users will not be aware the vehicle may be slowing down, stopping, or changing direction. During darkness and where the tail lamps are not illuminated, following drivers may not realize the presence of a vehicle ahead.

Each of these conditions will increase the risk of a crash.

What will Land Rover and your authorized Land Rover retailer do?

Land Rover is carrying out a recall of these vehicles to replace the tail lamp assemblies to the correct specification. There will be no charge for this repair under this program.

What should you do?

Please contact your preferred authorized Land Rover retailer and provide them with your Vehicle Identification Number (VIN) and request a service date to complete the work required under Program Code 'N598'.

Attention Leasing Agencies: If you are a vehicle lessor, Federal Regulations require you to forward this notice to your lessee within ten (10) days.

How long will it take?

The work will be carried out as quickly and efficiently as possible to minimize inconvenience to customers and is expected to take approximately two (2) hours, although your retailer may need your vehicle for a longer time. Your retailer can provide you with a better estimate of the overall time for the service visit.
