SAFETY RECALL N630: Early Deactivation of the Automatic Locking Retractor Mode

Vehicle Affected: Land Rover Defender, Discovery, Discovery Sport, Range Rover, Range Rover Sport, Range Rover Velar

Model Year: 2020-2022

National Highway Traffic Safety Administration (NHTSA) Recall Number: 21V-668

Dear Land Rover Owner:

This notice is sent to you in accordance with the *National Traffic and Motor Vehicle Safety Act*. Land Rover has decided that a defect which relates to motor vehicle safety exists in certain 2020-2022 model year Land Rover Defender, Discovery, Discovery Sport, Range Rover, Range Rover Sport and Range Rover Velar vehicles.

Your vehicle is included in this Recall action.

What is the concern?

A concern has been identified on certain Land Rover vehicles mentioned above where, seatbelt assemblies manufactured by Autoliv may not meet the performance requirements of occupant crash protection.

In order to secure certain child seats using only the seatbelt, the seatbelt must be put in Automatic Locking Retractor (ALR) mode to remove extra seatbelt slack. Due to a subcomponent company manufacturing issue, the ALR lever inside affected seatbelts may unintentionally deactivate early and switch to Emergency Locking Retractor (ELR) mode; which could allow the seatbelt to become loose, causing the child seat to be unsecured, and lead to an increased risk of injury.

This concern does not impact the compliance or functionality of the seat belt assemblies with respect to their normal use by adult passengers or use of the LATCH system to secure child restraint seats.

What will Land Rover and your authorized Land Rover Retailer do?

Land Rover is carrying out a recall of the vehicles mentioned above. An authorized retailer will inspect the affected seat belt assemblies. If any seat belt is found to be faulty, it will be replaced. There will be no charge to owners for this action under this Program.

What should you do?

Please contact your preferred authorized Land Rover retailer and provide them with your Vehicle Identification Number (VIN) and request a service date to complete the work required under Program Code 'N630'.

Until this repair has been completed, do not attempt to install child safety seats using the seat belt with the ALR function and instead only install child safety seats in positions where the LATCH system (lower anchors and top tether) will be used to secure the child safety seat.

Attention Leasing Agencies: If you are a vehicle lessor, Federal Regulations require you to forward this notice to your lessee within ten (10) days.

How long will it take?

The work will be carried out as quickly and efficiently as possible in order to minimize inconvenience to customers and is expected to take approximately one (1) hour, although your retailer may need your vehicle for a longer time. Your retailer can provide you with a better estimate of the overall time for the service visit.

What if I have previously paid for this concern?

If you have already paid for this concern before the date of this letter, Land Rover is offering a refund. To qualify for a refund, please provide your authorized Land Rover retailer with the original paid receipt.

To avoid delays, please do not send the receipt to Jaguar Land Rover North America.

Moved or no longer own this Land Rover vehicle?

If you are no longer the owner of this vehicle, Land Rover would greatly appreciate the name and address of the new owner (if known); please fill out and return the enclosed return postage-paid card.

What should you do if you have further questions?

If you have any questions or concerns, please contact the Service Manager at your authorized Land Rover retailer for assistance. If you have any queries or concerns that your retailer cannot address, please contact the Land Rover Customer Relationship Center at **1-800-637-6837, Option 9**, and one of our representatives will be happy to assist you.
