**Subject: Cascadia Drag Link Tapered Joint**

This notice is sent to you in accordance with the requirements of the *National Traffic and Motor Vehicle Safety Act*.

Daimler Trucks North America LLC (DTNA), on behalf of its Freightliner Trucks Division, has decided that a defect which relates to motor vehicle safety exists on specific model year 2019-2021 Freightliner Cascadia vehicles manufactured April 2, 2018, through July 14, 2020.

On certain vehicles, the drag link tapered joint, at the steering arm, may not have been tightened to manufacturer specification and may come loose. A loose drag link tapered joint at the steering arm may result in separation of the joint leading to a complete loss of steering, which could lead to a crash.

The drag link will be inspected and torqued to specification. Repairs will be performed by Daimler Trucks North America authorized service facilities.
