#### WHY DOES MY VEHICLE NEED REPAIRS?

Your vehicle [1] may experience an engine compartment fire originating from an electrical short in the Intake Air Heater Relay, which can potentially lead to the risk of a vehicle fire with the ignition in the "ON" or "OFF" position. **A vehicle fire can result in increased risk of occupant injury and/or injury to persons outside the vehicle, as well as property damage.**

#### HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US will repair your vehicle [2] free of charge (parts and labor). To do this, your dealer will inspect the Intake Air Heater Relay. Depending on inspection results, your dealer will either replace the relay or close the recall without further action. The estimated repair time is about one hour. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time.
