Dear Mercedes Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes Benz AG ("MBAG"), the manufacturer of Mercedes Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2021 GLE Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

On certain MY2021 GLE Class vehicles, the bolts used for the ground connection on the electric heater in the passenger side foot well might not have been tightened properly according to current torque specifications. In this case, the wiring in the electric heater could overheat, which could increase the risk of a fire.

What will your DEALER DO?

An authorized Mercedes Benz dealer will check the ground connection on the affected vehicles and repair it, if necessary. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be 2 to 8 hours, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes Benz dealer will also check for other repair measures that might be applicable to your vehicle, which may increase the required working time.

What should YOU DO?
