Dear Mercedes-Benz Sprinter Owner:

This notice is being sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz Sprinter vans, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2021 Mercedes-Benz Sprinter vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

#### What is the issue?

MBAG has determined that on certain Sprinter vans, the rear portion of the fender liner on the front axle could contact and chafe the brake hose. If the distance between the fender liner and the brake hose is not sufficient, the front wheel suspension could contact and chafe the brake hose, which could lead to the loss of brake fluid. Over time, if the operator ignores the brake fluid warning indicator and continues to operate the vehicle until the brake fluid empties, the stopping distance may lengthen which could increase the risk of a crash.

#### What will your Mercedes-Benz Dealer do?

An authorized Mercedes-Benz Sprinter dealer will check the condition and clearance of the brake hoses and, if necessary, replace them. Additionally, the corresponding fender liner will be checked and modified accordingly on the respective side.

#### Steps to take.

For additional information and to schedule an appointment, please contact your preferred, authorized Mercedes-Benz Sprinter dealer at your earliest convenience.
