RECALL / RETIRO

Vehicle May Stall if Low-Pressure Fuel Pump Becomes Inoperative (21TAD3)

DESCRIPTION / DESCRIPCIÓN

The subject vehicles were manufactured by Subaru. According to Subaru, the subject vehicles are equipped with a low-pressure fuel pump which may stop operating. If this were to occur, warning lights and messages may illuminate on the instrument panel, and the engine may run rough.

RISK / RIESGO

This may result in a vehicle stall and the vehicle may unable to be restarted. This can increase the risk of a crash.

FIX / SOLUCIÓN

Scan this QR code to find a local authorized dealer that will replace the low-pressure fuel pump with an improved one **FREE OF CHARGE OR CALL 800-331-4331.**
