What you need to know

CONDITION Your 2019 Yaris was designed and manufactured by Mazda under an agreement between Toyota and Mazda.

According to Mazda, your vehicle is equipped with a low-pressure fuel pump which may stop operating. If this were to occur, warning lights may be displayed on the instrument cluster, and the engine may run rough. This may result in a vehicle stall, and/or the vehicle may be unable to be restarted. **If a vehicle stall occurs while driving, this could increase the risk of a crash.**

REMEDY Any authorized Toyota dealer will replace the low-pressure fuel pump with an improved one **FREE OF CHARGE** to you.

DURATION The remedy will take approximately one and a half hours. However, depending on the dealer's work schedule, it may be necessary to make your vehicle available for a longer period of time.

EVITA PONER EN PELIGRO A TUS SERES QUERIDOS Y A TI MISMO.

CONDICIÓN Tu Yaris 2019 fue diseñado y fabricado por Mazda bajo un acuerdo entre Toyota y Mazda.

Según Mazda, tu vehículo está equipado con una bomba de combustible de baja presión que podría dejar de funcionar. De ocurrir esto, las luces de advertencia podrían encenderse en el panel de instrumentos, y el motor podría operar de manera

forzada. Esto puede provocar que el vehículo se detenga y/o que el vehículo posiblemente no pueda volver a encenderse. **Si un vehículo se detiene mientras conduces, esto podría aumentar el riesgo de un choque.**
