What you need to know

CONDITION Your [REDACTED] Camry has a system that provides power brake assist when the driver depresses the brake pedal. Specific components in a part of this system can prematurely wear and could lead to a sudden loss of power braking assist. Non-power assisted braking will remain functional. **However, a sudden loss of power braking assist while driving could increase the risk of a crash.**

REMEDY Any authorized Toyota dealer will inspect the vacuum pump assembly and repair or replace it, **FREE OF CHARGE**. In the rare case that the condition has occurred at the time of inspection, the Toyota dealer will repair or replace any other damaged parts caused by the condition, **FREE OF CHARGE**.

DURATION The repair takes approximately one hour in most cases. However, depending upon the dealer's work schedule, it may be necessary to make the vehicle available for a longer period of time. In the rare case that the condition has occurred, the repair may take longer, depending on which other parts were damaged by the condition.

If you are not the current owner of the vehicle, [click here](#) to update your records.

EVITA PONER EN PELIGRO A TUS SERES QUERIDOS Y A TI MISMO.

CONDICIÓN Tu Camry [REDACTED] tiene un sistema que proporciona asistencia para la potencia de frenado cuando el conductor presiona el pedal de freno. Algunos componentes específicos de este sistema pueden desgastarse prematuramente y esto podría causar una pérdida repentina en la asistencia para la potencia de frenado. El frenado sin asistencia para la potencia de frenado continuará funcionando. **Sin embargo, una pérdida repentina en**

la asistencia para la potencia de frenado mientras conduces podría aumentar el riesgo de un choque.

LLAMA AL 1-616-364-9700 PARA PROGRAMAR TU REPARACIÓN GRATUITA.
