

IMPORTANT SAFETY RECALL

This notice applies to your BabyRide Infant Car Seat

NHTSA Recall 21C-001

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

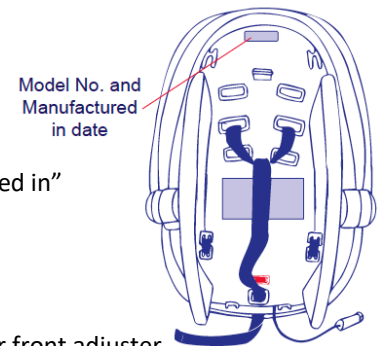

Dear BabyRide Owner,

Combi USA has decided that BabyRide Infant Car Seats fail to conform to Federal Motor Vehicle Safety Standard No. 571.213 – Standard No. 213; Child Restraint Systems. As our records show that you have registered as an owner of a BabyRide Infant Car Seat, we are sending you this recall notice to advise you of a repair kit being made available to correct the issue.

Baby Ride Infant Car Seats affected:

Model No.: 378099

Car Seats Affected: All Combi USA BabyRide Infant Car Seats with a “Manufactured in” date between 2016/May/01 and 2019/August/31.

Description of the non-compliance:

Combi USA has determined that the 1-inch-wide webbing strap used in the center front adjuster to snugly adjust the shoulder harness straps onto the child is below the minimum initial breaking strength requirements as specified in FMVSS 213. The webbing could fail to adequately restrain the occupant in the event of a vehicle crash.

Combi USA urges you to continue using the BabyRide Infant Car Seat after inspecting the 1-inch-wide webbing for any fraying or wear and check for proper locking of the harness adjuster after the harness is snugly adjusted. You can continue to use the BabyRide Infant Car Seat until the replacement 1-inch-wide webbing has been installed.

Remedy of the nonconformity:

Combi USA will be voluntarily providing a replacement 1-inch-wide center front adjuster strap and instructions to replace the strap free of charge. As a registered owner of a BabyRide Infant Car Seat, Combi USA will automatically send you a second notice along with a repair kit and instructions when they become available.

Combi will start shipping the replacement strap and instructions starting in January 2022.

If you believe that Combi USA has failed or is unable to remedy the nonconformity without charge or within a reasonable amount of time, you may submit a complaint to the Administer, National Highway Traffic Safety Administration, 1200 New Jersey Ave., SE., Washington, DC 20590; or call the toll free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

If you have any questions or need assistance, contact Combi USA by e-mail at customerservice@combiusa.com.

Thank you!
