THIS NOTICE APPLIES TO YOUR VEHICLE, VIN:

Dear Volvo A. Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Volvo Car USA LLC (Volvo) on behalf of Volvo Car Group, has decided that a defect which relates to motor vehicle safety exists in certain model year 2001-2009 S60 and model year 2001-2006 S80 Volvo vehicles.

The reason for Recall R10125:

Volvo Cars investigations has identified a problem regarding the driver airbag. The driver's air bag inflator may explode during deployment, due to propellant degradation occurring after long-term exposure to high absolute humidity, high temperatures, and high temperature cycling.

In the event of a crash where the driver airbag is activated, the driver might be struck by sharp metal fragments from inside the inflator potentially resulting in serious injury or death.

What should you do now?

The corrective action is to replace the front driver airbag with a new airbag, **free of charge**. However, the replacement parts needed to repair your vehicle are **not available** at this time for this repair.

Please be assured that Volvo is making every effort, to secure the needed replacement parts and will send you a follow-up letter when replacement parts are available.

Once you receive notification that parts are available, please contact your authorized Volvo retailer to schedule an appointment. This procedure will be completed at no cost and can take up to one hour to complete, however due to service scheduling your Volvo retailer may require your vehicle for a longer period.
