Customer Handling and Dealership Follow-Up

Toyota encourages dealerships to follow-up with their customers by telephone to urge them to complete any open Safety Recall and/or Service Campaign. A word track has been provided in the dealer letter for this purpose. To ensure a consistent and accurate description of a campaign is communicated to the customer, dealership associates are requested to refer to the specific campaign Q&A (available in TIS) to answer any specific customer questions.

Please review this entire package with your Service and Parts staff to familiarize them with the proper step-by-step procedures required to implement this Owner Renotification of Non-Completed Safety Recall, Special Service or Limited Service Campaign.

Thank you for your cooperation.
