**Subject:** Wire Harness Built Incorrectly

Dear Jack Johnson:

This letter serves to acknowledge Volta Power Systems LLC's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

**Makes/Models/Model Years:**

VOLTA POWER SYSTEM/ADAPTOR HARNESS/9999

**Mfr's Report Date:** January 13, 2022

**NHTSA Campaign Number:** 22E-001

**Components:**

ELECTRICAL SYSTEM:WIRING

**Potential Number of Units Affected:** 646

**Problem Description:**

Volta Power Systems LLC (Volta) is recalling certain adaptor harnesses, part number 100001146. The wire harness may have been built incorrectly, resulting in the loss of over-current protection.

**Consequence:**

Loss of over-current protection can cause the wires to overheat, increasing the risk of a fire.

**Remedy:**

Volta will work with the affected vehicle manufacturers, and dealers will replace the adaptor harness, free of charge. All affected vehicle manufacturers have been notified. Owners may contact Volta customer service at 616-226-4222.

**Notes:**

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to [www.nhtsa.gov](http://www.nhtsa.gov).

Please ensure the following requirements are met:

Please state the date you notified Storyteller Overland of the safety risk. If your company does not have dealers or distributors, please state so in the 573 (49 CFR 573.6 (c)(8)(ii)).

**AMENDED 573 REQUIRED.**

Based on the provided remedy plan, it appears that your company may not be able to provide the required recall completion rate quarterly reports. If another company intends to file the report with detailed information about your company's remedy counts, please state so in the remedy section of the 573.

**AMENDED 573 REQUIRED.**

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Volta Power Systems LLC's contact for this recall will be Kristin Lepper who may be reached by email at [kristin.lepper@dot.gov](mailto:kristin.lepper@dot.gov). We look forward to working with you.

Sincerely,

Alex Ansley  
Chief, Recall Management Division  
Office of Defects Investigation
