EQUIPMENT:OTHER:LABELS

Potential Number of Units Affected: 68

Problem Description:

Cruiser RV (Cruiser) is recalling certain 2022 Shadow Cruiser travel trailers. The Federal certification label shows the incorrect Gross Axle Weight Rating (GAWR), which can allow the vehicle to be overloaded. Consequence:

The vehicle may be overloaded, increasing the risk of a crash.

Cruiser will send out replacement certification labels, free of charge. Owners notification letters are expected to be mailed August 30, 2022. Owners may contact Cruiser at 1-574-206-7920.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.nhtsa.gov.

We have reviewed the proposed owner notification letter and approved it for distribution.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Under 49 U.S.C. § 30112(a), it is illegal for anyone, including a manufacturer, distributor, dealer, or retailer to sell an item of equipment or vehicle that fails to comply with all applicable Federal motor vehicle safety standards.

As stated in Part 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
