22T-003

Manufacturer Name : Continental Tire the Americas, LLC**Submission Date :** FEB 17, 2022**NHTSA Recall No. :** 22T-003**Manufacturer Recall No. :** NR**Manufacturer Information :**

Manufacturer Name : Continental Tire the Americas, LLC

Address : 1830 Macmillan Park Drive

Fort Mill SC 29707

Company phone : 704-583-4882

Population :

Number of potentially involved : 4,256

Estimated percentage with defect : 10 %

Tire Information :

Tire Brand 1 : Continental

Tire Line : ContiScoot

Tire Size : 100/80-16 M/C 50P

Descriptive Information : Several products of the ContiScoot tire line developed superficial cracking in the tread grooves during conformance of production FMVSS 119 endurance testing.

Production Dates : JUL 15, 2018 - FEB 27, 2021

Description of Noncompliance :

Description of the Noncompliance : Superficial cracks in the tread grooves longer than the FMVSS 119 Endurance test specification of 3/16 inch.

FMVSS 1 : 119 - New pneumatic tires- other than passenger cars

FMVSS 2 : NR

Description of the Safety Risk : During FMVSS 119 testing, superficial groove cracks in the tread rubber developed, however these cracks did not propagate into the reinforcing materials of the tires.

Description of the Cause : Currently under investigation.

Identification of Any Warning that can Occur : Groove cracking may appear during the tire service life.

Chronology :

August 2020 - February 2021: Internal conformance of production testing showed findings of tread groove cracking in two products of the ContiScoot tire line. CTA performed more testing, including an extended endurance test well beyond the requirements of FMVSS 119. Superficial groove cracks in the tread rubber developed however, these cracks did not propagate into the reinforcing materials of the tires. No air loss or loss of material was observed. In an abundance of caution, CTA stopped sales of all Contisoot tires in the USA. March 2021: CTA filed a noncompliance information report pursuant to 49 CFR Part 573 with respect to a noncompliance of two products related to endurance testing requirements of FMVSS No.119. CTA filed a petition for exemption from the notice and remedy requirements pursuant to 49 CFR Part 556. April - December 2021: CTA and NHTSA engaged in multiple discussions regarding the facts supporting CTA's petition. February 2022: CTA withdrew its petition and decided to file this Noncompliance Information Report and to initiate this recall. CTA is not aware of any field complaints in the USA for this condition, property damage or personal injury claims for the entire ContiScoot tire line.

Description of Remedy :

Description of Remedy Program : CTA will conduct a recall campaign to replace the affected tires that have been sold as replacement tires, or are in dealer inventories. All known customers, distributors, dealers and independent outlets will receive notification of the campaign, instructions on how to identify the affected tires, information regarding removal of the affected tires from service, and instructions on the return/disposal of affected tires. CTA will offer to reimburse the replacement cost for any customer who, prior to this campaign, replaced these tires due to the condition described above.

How Remedy Component Differs from Recalled Component : CTA will reimburse the replacement cost of the affected tires.

Identify How/When Recall Condition was Corrected in Production : CTA is in the process of implementing product improvements. Additionally, affected tires have been blocked from distribution in the USA since February 22, 2021.

Recall Schedule :

Description of Recall Schedule : CTA will notify distributors, as well as all independent outlets that are authorized to replace the affected tires that are the subject of this recall, of their responsibilities in accordance with Section 573.6(c)(9). CTA will also notify all known customers that purchased these products.

Planned Dealer Notification Date : MAR 07, 2022 - MAR 11, 2022

Planned Owner Notification Date : MAR 28, 2022 - APR 01, 2022
